## Need a cuddle?

Two enterprising mums who appeared on Dragons' Den have launched a range of fun towels for children. Following the success of their Cuddledry baby towel, they have brought out the toddler versions – Cuddlebug and Cuddlemoo – perfect for both bath and beach. Soft, long and with two layers for extra warmth, the built-in hood also allows kids to wear the towel and race around until they are dry. Made from organic cotton and eco-friendly bamboo fibre, Cuddlebug is available in green beetle print on white or pink ladybird print on white, while the Cuddlemoo has a cow print in fawn and white. Towels cost £29.99. Visit [www.cuddledry.com](http://www.cuddledry.com)

## It's a bug's life

We love the name and nature of this audacious Aussie insect repellent – **Bugger Off Insect Spray** by Emma Cool is a chemical-free repellent from Down Under that's made from 100 per cent natural ingredients. These include aloe vera and a blend of lavender, rosemary, citronella, neem and sage – essential oils that help keep biting insects at bay, without causing the negative impact on the environment that other repellents containing DEET can have. Perfect for the more eco-friendly traveller, Bugger Off Insect Spray costs £5.99 (125ml) and is available to buy online by visiting [www.mypure.co.uk](http://www.mypure.co.uk)
