## CASE CLOSED

► Tumi T-Tech presents the ultimate in luggage

Wheeling this case through departures, you're definitely going places. Sleek, moulded and stylish... we could be talking about a sports car, more economical and without the horsepower, perhaps. However, the Tumi T-Tech travel collection is definitely a desirable piece of kit.

It's made from a tough yet lightweight advanced formula of polycarbonate plus that is triple-layered for premium strength and durability. Available in liquid black, red and aluminium, its armour-like contoured design leaves you with no doubt that this case can endure a tough transit and come around the conveyor belt gleaming. Extra features include aircraft-grade aluminium handles, zip combination locks and retractable carry handles.

The Tumi T-Tech is available at Rolling Luggage. £286.95 High Street £300 WP287

CULTURE

## ART IN FASHION

► Paul Smith presents one-off exhibitions

The Paul Smith Globe store in Terminal 5 is hosting a series of photographic presentations. The shows will comprise a series of never-seen-before prints alongside rare and eclectic items that Paul has gathered on his travels. Look out for *Mills & Boon* (3-14 April) - an ironically kitsch display of original cover artwork from some of the publisher's best-loved romance titles.

Please call 020 8283 7066 for further information.
